

(d) REMARKS

In order to correct certain typographical and syntax errors, various corrections to the specification have been made. It will be apparent that no new matter has been added.

The specification does not provide in haev verba antecedent basis for the subject matter of claim 2. Accordingly, Applicant has added an appropriate supporting paragraph at page 29, after line 15 to specifically recite the subject matter of claim 2. It will be appreciated that additional support is found in the specification for this subject matter at page 8, lines 11-15; page 9, lines 2-5; page 18, lines 1 and 2; page 23, lines 10-13; page 26, lines 23-27; page 27, lines 2-10 and page 42.

On specification pages 42 and 44 it will be seen that the examples of the hydrophilic dispersion medium include compounds with hydroxyl, carboxyl, carbonyl and imido groups. Likewise, on specification page 44, for the inner wall it will be seen that the wall materials include compounds with carbonyl, imido, amide, alcohol and carbonyl groups.

The Abstract of the Disclosure has been amended to correct certain typographical errors. A clean copy of the Abstract is provided, as required.

An early and favorable action on the merits is respectfully requested.

Applicants' undersigned attorney may be reached in our New York office by telephone at (212) 218-2100. All correspondence should continue to be directed to our below listed address.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Peter Saxon", written over a horizontal line.
